BRAINY BYTES

A Smart Approach to Computers, Coding & AI

FOLLOWS
NEP 2020
NCF 2023

CLASS
1-8

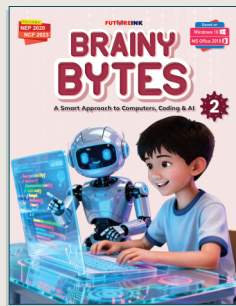

Price : ₹ 299
ISBN : 978-93-89650-33-4

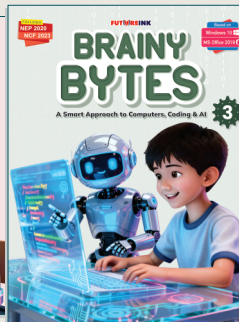

Key features

The *Brainy Bytes* series for Classes 1 to 8 has been thoughtfully designed to spark curiosity, creativity, and logical thinking in young minds. Each book in this series takes students step by step through the exciting landscape of modern technology — from the first click of a mouse to the first line of code, and from colourful drawings to intelligent machines that can think and learn.

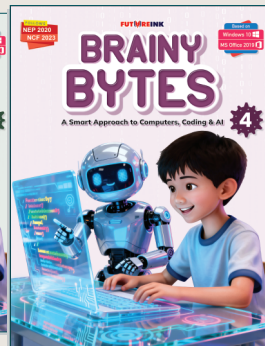

- ◆ **Age-Appropriate Content:** Books are tailored to the specific age group, using language and examples that are easy for young learners to understand.
- ◆ **Foundational Concepts:** We begin with a solid grounding in computer science, covering topics such as hardware, software, algorithms, and coding. These concepts are the building blocks of AI.
- ◆ **Interactive Learning:** These books often include hands-on activities, puzzles, and coding exercises to engage students actively in the learning process.
- ◆ **Introduction to AI:** As we venture into the world of AI, we discuss what AI is, its history, and its various applications.
- ◆ **Problem-Solving Skills:** Books focus on nurturing problem-solving skills by presenting coding challenges and encouraging students to find creative solutions.
- ◆ **Hands-On Projects:** Throughout the book, students will have the opportunity to engage in hands-on activities and projects that reinforce their learning and encourage creativity.
- ◆ **Interactive Quizzes and Exercises:** To reinforce learning, each chapter includes quizzes and exercises that test students' understanding and encourage critical thinking.

Climb and Learn

 CLASS
1-5

 Price : ₹ 390
 ISBN : 978-93-91346-02-7

Key features

Maths Vibes : Climb and Learn is a series of Mathematics course books for primary classes based on the latest guidelines designed by NEP, 2020 and the NCF, 2023. The series is well-graded and aims to create an environment for the learners to learn the concepts with ease, and practice, apply and reinforce what they have learnt. The series focusses on building problem-solving skills while creating a strong foundation in Mathematics.

SALIENT FEATURES

- ☑ Warm up activities, stories, rhymes, puzzles or quizzes to introduce each chapter
- ☑ Concept introduction with the help of attractive pictures, illustrations and graphic representations
- ☑ In-text exercises, activities and questions based on thinking and analytical skills after each concept
- ☑ Concept-related additional information and handy tips interspersed within the text
- ☑ Summary of each chapter included in books 3 to 5
- ☑ Chapter-end exercises, projects and activities given after each chapter for recapitulation

SALIENT FEATURES

What You will Learn Form this Book...

The Art & Ink book series have been conceived and created based on the need of the art education system and the class teachers in the classroom as well as the students.

The books have been prepared according to the simple and clear guidelines on basis of the new curriculum of the national policy of education.

Students have been provided with the opportunity to practice along with sufficient knowledge about different genres of art.

In the book an attempt has been made to make the students well-versed in the subject by studying each and every subject of art form simple to complex step-by-step.

This series has been developed on the real world experience consisting of meaning-full themes for the student's learning experiences. The relevant exercises are based on objects, people, traditions, environment and experiences.

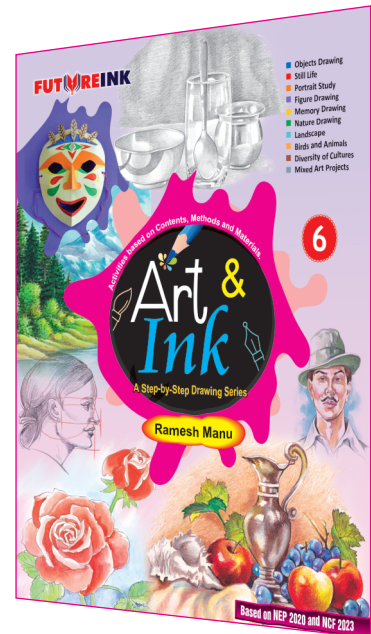

The book covers almost all the aspects of drawing, painting, printmaking, pottery, sculpture, collage work and fibre based activities.

Basic Elements of Art such as line, Colour, Shape and Form, Proportion, Space Perspective and Texture have properly been explained. Elements of Art such as Balance, Emphasis, Pattern, Rhythm and Movement, Unity and variety have been precisely taught.

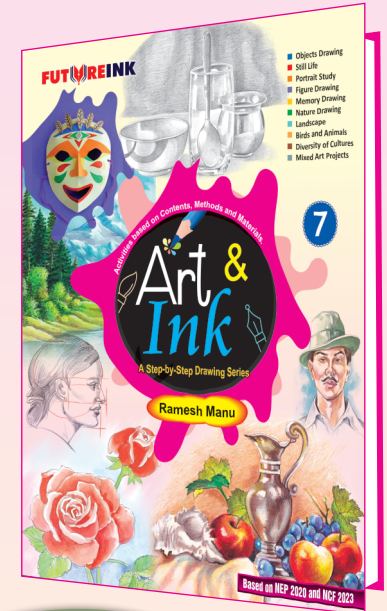

The books give information about the glorious traditional styles of Indian arts. In this way the students have an awareness of the arts and desire to study more with interest gets strengthened.

Sparkling Twinkling is a series of books for the Pre-Primary levels. The books are structured keeping the essence of the **National Education Policy (NEP-2020)** in mind and focus on exposing the learners to various parameters of learning in an enjoyable and relaxed manner. The books are colourfully designed with appropriate illustrations to engage and stimulate the young minds. The activities in the books provide ample opportunities for brain-storming, critical and logical thinking, conceptual understanding and developing social, ethical and emotional capabilities among learners.

Why Choose GIGGLES!

As the name suggests, Giggles brings joy and happiness to young learners. The series connects with children's natural curiosity while encouraging active participation and engagement, making learning fun and engaging. Developed for Nursery, LKG, and UKG levels, the books integrate modern educational methodologies with playful yet purposeful activities.
